Our Products

Precision cleaning solutions engineered for excellence. From aqueous to solvent-based systems, we deliver customized technology for your specific needs.

CATEGORY 01

Aqueous-Based Cleaning Systems

Advanced cleaning technology designed for reliability and environmental compliance.

AquaWash Series

Single tank multi-process cleaning systems designed for versatility and high-precision cleaning.

PowerClean Series

Industrial cleaning machines engineered for complex geometries and high contamination levels.

MultiLine Series

Continuous flow cleaning systems optimized for simple flat geometry parts with high productivity demands.

TunnelWash Series

High-volume conveyor-based cleaning systems for continuous manufacturing processes.

CATEGORY 02

Solvent-Based Cleaning Systems

Advanced cleaning technology designed for reliability and environmental compliance.

SOLVACS

Vacuum Assisted Solvent Systems for removing contaminants from hard-to-reach areas without harming sensitive components.

VAIOCS

Hybrid Cleaning Systems combining water and solvent processes for specialized cleaning requirements.

CATEGORY 03

Specialized Solutions

Advanced cleaning technology designed for reliability and environmental compliance.

Ultrasonic Cleaners

Advanced ultrasonic cleaning technology for delicate and precision parts.

NGCT – MecanoFast

Specialized cleaning solutions for rapid and efficient component processing.

Pioneering the future of industrial manufacturing with precision engineering and intelligent automation solutions.
